

MILAN J

Lead Cloud & DevOps Engineer

✉ milan.j.cloud@email.com | 📞 +91 98765 43210 | 📍 Bengaluru, India | 🔗 linkedin.com/in/milanj-cloud | 🐙 github.com/milanj-cloud

PROFESSIONAL SUMMARY

Results-driven **Cloud & DevOps Engineer** with over 5 years of hands-on experience architecting, automating, and maintaining high-availability, scalable multi-cloud infrastructures across **AWS** and **Azure**. Proven expertise in Infrastructure as Code (**Terraform**), container orchestration (**Kubernetes, Docker**), continuous integration/deployment (**CI/CD** pipelines), and zero-downtime microservices deployments. Adept at reducing cloud expenditure, optimizing latency, and ensuring enterprise-grade cloud security compliance.

TECHNICAL SKILLS

Cloud Platforms:	AWS (EC2, EKS, S3, VPC, IAM, RDS, CloudWatch, Lambda), Azure (AKS, App Services, Blob, IAM), GCP
IaC & Automation:	Terraform, Ansible, AWS CloudFormation, Helm, Packer
Containers & Orchestration:	Kubernetes (EKS/AKS), Docker, Docker Compose, Istio Service Mesh, containerd
CI/CD & DevOps:	GitLab CI, GitHub Actions, Jenkins, ArgoCD (GitOps), SonarQube, Nexus, JFrog
Monitoring & Observability:	Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana), AWS CloudWatch, Datadog
Scripting & OS:	Python, Bash Shell Scripting, Linux (Ubuntu/RHEL/Debian), Go (Foundations), Git, REST APIs
Security & Governance:	HashiCorp Vault, AWS KMS, IAM Least Privilege, OWASP, Trivy, SonarQube Security Gate

PROFESSIONAL EXPERIENCE

Senior Cloud Infrastructure Engineer <i>Nexora Cloud Solutions Pvt. Ltd.</i>	Jan 2024 – Present Bengaluru, India
--	---

- Architected and provisioned modular, multi-region **AWS infrastructure using Terraform**, automating deployment for 40+ microservices and slashing provisioning turnaround time by **65%**.
- Designed and deployed mission-critical **Amazon EKS** production clusters with automated node auto-scaling (Karpenter) and Istio service mesh, achieving **99.99% system availability**.
- Implemented GitOps deployment workflows utilizing **ArgoCD** and **GitHub Actions**, establishing automated canary releases and eliminating production deployment rollbacks.
- Executed FinOps cloud cost optimization strategies (Reserved Instances, Spot Instances, S3 lifecycle policies), reducing monthly AWS infrastructure spend by **28% (\$18,000/month)**.

Cloud & DevOps Engineer <i>StrataCore Technologies</i>	Jul 2021 – Dec 2023 Hyderabad, India
--	--

- Maintained and optimized automated **CI/CD pipelines in Jenkins and GitLab CI**, integrating automated unit testing, SonarQube code scanning, and container vulnerability audits with Trivy.
- Migrated legacy on-premise monolithic applications to containerized Docker microservices hosted on **Kubernetes**, reducing server footprint and licensing costs by **35%**.
- Configured centralized observability and alerting with **Prometheus & Grafana dashboards**, reducing Mean Time to Detection (MTTD) by **45%** and Mean Time to Resolution (MTTR) by **30%**.
- Authored custom **Python & Bash automation scripts** for automated database snapshot management, log archiving, and infrastructure drift detection.

KEY PROJECTS

Enterprise Multi-Region Disaster Recovery Automation (AWS & Terraform) Engineered a fully automated cross-region active-passive disaster recovery framework on AWS with Route 53 latency routing, Aurora Global Databases, and S3 Cross-Region Replication (CRR).	2024
---	-------------

- Achieved an RTO (Recovery Time Objective) of under 10 minutes and an RPO (Recovery Point Objective) of under 1 minute during disaster simulation drills.

End-to-End DevSecOps Pipeline & Kubernetes Zero-Downtime Deployment2023

- Constructed secure DevSecOps pipelines incorporating HashiCorp Vault secrets management, static application security testing (SAST), and automated zero-downtime rolling updates.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (SAA-C03)	Issued: 2023
Certified Kubernetes Administrator (CKA) – The Linux Foundation	Issued: 2024
HashiCorp Certified: Terraform Associate (003)	Issued: 2023

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering	2017 – 2021
Visvesvaraya Technological University (VTU)	First Class with Distinction
